Yealink AV-CALBOX-01-05 Datasheet

The AV-CALBOX-01-05 is a purpose-built calibration target for deploying the AuraVision IntelliFocus feature. After the MVC S98 system is installed in your meeting room, it enables quick, accurate measurement of the ideal mounting positions for the SmartVision 80 camera and the CM50 ceiling microphone — dramatically reducing AuraVision commissioning time.

Specifications

Parameter	Description
Package Contents	• Calibration box x 5 • Magnetic tape x 10
Package Specifications	• 1080 mm x 720 mm x 50 mm • G.W/CTN: 5.35 kg
